

# ANNOUNCEMENT

## Warp Systems is pleased to announce the release of M3

The M3 is an exciting addition to the Warp range of mobile computers, this super slim and lightweight unit will get your customer's attention

Superior Ergonomics

### Main Features

- Lightweight
- Super Slim
- Rugged IP 54 Rated, not just sealed.
- Highly Configurable (GSM/GPRS, Scanner, Bluetooth, WiFi, Camera)
- Large Colour Screen
- High Capacity Battery

### What to Like about the M3

#### The lightest & slimmest design in the world

The Slimmest and lightest M3 (250g) is designed to reduce user fatigue in scan intensive application. Excellent design for mobile field users and in-house management tasks.

#### Outstanding Durability

M3 has proven performance in extreme environments through a large variety of durability tests. It successfully passed IP54 (Water & Dust proof), Drop test 1.5m, and operating temperature test (-20 to 50 C)). It has also achieved CE(R&TTE),EMC, CDG, SAR, A-Tick Type approvals.

#### Choose you Options

(GSM/GPRS, Scanner, Bluetooth, Wireless Lan, Camera)

Standard configurations have been identified however all variations of the stated options can be built to order .

#### Power to Work

The M3 battery is a rechargeable Lithium Polymer type that delivers 2000mAh, you even get a spare included with each end unit purchased.

Fits in your Pocket

Delivered as a complete Kit
